**DIGITALIS distributes
"SISTEMA AMBIENTE"
în all the countries.**
A tool that:
➢ organizes the data in more articulated way

➢ manages the prevention most technical and less bureaucratic

Introduces knowledge in the firm
write to the address:
digitalis@iride.to.it

■ to perform in driven way the **analysis** and the **prevention of the working risks** and to auto-certify in real time

■ to plan and to document the **procedures**

■ to manage the movements of the **wastes** and the **food Hygiene**

■ to manage the environmental **quality** and the **issues** of every firm's unity

■ to automatically get the environmental **accounting** and to elaborate the **budge**t of the site and the products

■ with consumers of **different languages**

The prevention has to be transparent and comprehensible to everybody
The auto-certification is the result of the recording of the data, not of editing operations.
